

RITESH KUMAR DAS

Django Backend Developer | Python

riteshkrdas479@gmail.com | +91-7047648483 | [ritesh-kumar-das](#) | [ritesh-bilip](#) | India

PROFESSIONAL SUMMARY

Django Backend Developer with production-level experience building scalable REST APIs, real-time WebSocket applications, and Docker-based microservices. Proficient in Python, Django REST Framework, PostgreSQL, Redis, Docker Compose, and cloud deployment. Independently designed, built, and deployed five live projects — from architecture to production. Seeking a backend engineering role where I can contribute to well-architected software systems and grow as a specialist.

TECHNICAL SKILLS

Backend:	Django, Django REST Framework, Django Channels	Languages:	Python (Advanced), Java (Familiar)
APIs & Auth:	REST API, WebSockets, JWT Authentication	Databases:	PostgreSQL, Redis
Frontend:	HTML5 CSS, JavaScript,	Tools:	Git, GitHub,
CS Fundamentals:	Data Structures, Algorithms, OOP, DBMS	Soft Skills:	Problem Solving, Team Collaboration, Adaptability

PROJECTS

Neon Chatroom — Real-Time Chat Application [dasri-auth-service.onrender.com](#)

Tech Stack: Django Channels, Redis, PostgreSQL, JWT, Render

- Built real-time chat rooms using Django Channels and WebSockets — instant message delivery with zero polling overhead.
- Integrated JWT authentication via a custom auth service, securing both WebSocket connections and REST endpoints with token-based access control.
- Deployed to Render with PostgreSQL and Redis backends; configured environment variables and service dependencies for stable production operation.
- Implemented token-expiry handling in WebSocket sessions — proactive reconnect mechanism prevents silent session drops in production.
- Open-sourced with a live demo, demonstrating end-to-end deployment skills from local development to cloud production.

Vehicle Rental Management System — Full-Stack Web Application [vehiclerentalsystem-2-58cy.onrender.com](#)

Tech Stack: Python, Django, PostgreSQL, Django ORM, REST API, Git/GitHub

- Developed a vehicle rental platform with user registration, authentication, vehicle search, and complete booking workflows.
- Designed normalized relational database models using Django ORM and PostgreSQL — handling many-to-one and foreign key relationships across vehicles, customers, and rentals.
- Built RESTful API endpoints for all CRUD operations on vehicle inventory and reservation records; used correct HTTP status codes and response formats.
- Applied Django's built-in authentication and role-based access control for managing rental operations; structured project per Django MVC best practices.

AccessForge — Authentication & User Management System

Tech Stack: Django 5.2, PostgreSQL, Custom User Model

- Built a custom User model with email as the unique identifier and hashed password storage — following Django's recommended approach for auth customization.
- Developed end-to-end signup and login workflows using Django Forms and the messages framework; provided real-time user feedback on authentication events.
- Managed full database schema evolution through Django migrations; configured PostgreSQL as the production database backend.

Weather Detector — API Integration Project

Tech Stack: Django, OpenWeatherMap API, Bootstrap

- Integrated OpenWeatherMap third-party API to fetch real-time weather data dynamically by city name; handled API responses and error states cleanly.
- Built Bootstrap-based responsive templates with form submission handling and dynamic rendering; debugged template-view mismatches to ensure accurate data display.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering
Swami Vivekananda University

Currently Pursuing

Higher Secondary Education (Vocational)
Bangabari High School | Board: WBSCTVESD

2023

CERTIFICATIONS

Java — Issued June 2026

Credential ID: CERT-178030656552247-870D702C

Python Programming — Issued December 2023

Credential ID: ASd/PYT/SWA/A+/47611

EXTRACURRICULAR

- University Cricket Team Member (2026) — Represented Swami Vivekananda University at the All India University Cricket Tournament (East Zone); demonstrated leadership, teamwork, and performance under competitive pressure.
